hello world!

this is math fomulator:

$$f(x) = \log_2 x$$

which means computer the $\log_2(x)$

1)set the style of font

printer font

roman font

2)set the shape of font

upshape of font

itshape of font

slshape of font

3)中文字号

2号字体 5号字体 6号字体

4)set size of font

smallsize of font normalsize of font hugesize of font

5)set the thickness of font

font of mdseries

font of bfseries
